

CREATE YOUR OWN
GLASS PACKAGING
DESIGN IN 10 STEPS

1. BRIEFING

We discuss your new project: your marketing objectives, volumes, functional requirements, timeframes, tooling investments and unit cost targets.

2. DESIGN

Our inhouse designers create ideas that meet your aesthetic and functional considerations.

3. PROTOTYPING

Having chosen your design we 3D print samples. You could opt for a high quality acrylic sample too.

4. PROPOSAL

Including mould build cost, unit costs, logistics scheduling, production scheduling, exclusivity, payment terms and contractual details. We will also advise on the timeline.

6. PRODUCTION TRIALLING

Our technical team visit your production trials to better understand the requirements for your packaging and logistical considerations. We make any final necessary adjustments.

7. CONTRACT SIGNING

These contracts protect the interests of all parties, ensuring that proper consideration has been given to all aspects of the partnership.

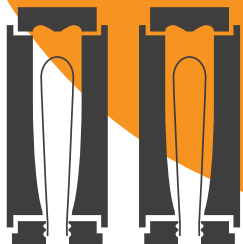

5. BUILDING OF TRIAL MOULD

For the production of circa 50 samples. This step mandatory helps the factory optimise the production parameters for the full-scale production of your item. You can use these trial samples for your own production, packaging & logistics trials.

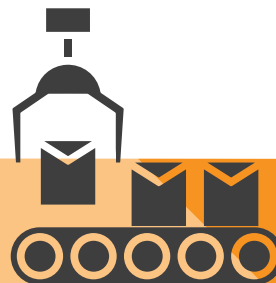

8. BUILDING OF PRODUCTION MOULD

9. FULL PRODUCTION

Commencing according to the agreed schedule. Our logistics, production and quality managers will be in regular contact dialogue with your personnel.

10. WAREHOUSING & DISTRIBUTION

Depending on needs, Aegg can warehouse buffer stock and manage the on-going deliveries of your packaging.

ABOUT AEGG GLASS POTS & RAMEKINS

All Aegg products are made to internationally recognised quality standards and would be described as being flint: they have very high lustre and clarity, though this depends on the volume of recycled glass used.

APPLICATIONS

Desserts, starters & dips.

STANDARDS & BESPOKE DESIGNS

Details of our off-the-shelf products (termed as 'standards') are to be found in this brochure. We can also design and manufacture glass packaging bespoke to your specific shape, size and closure needs.

VOLUMES

'Standards' can be supplied in pallet quantities upwards. Bespoke designs are supplied in full lorry or shipping container quantities.

COUNTRIES

Product can be delivered to any country, though economies of distribution are more likely favourable for the European landmass, inc UK.

SECURITY OF SUPPLY, WAREHOUSING & LOGISTICS

Aegg has its own warehousing and distribution fleet in the UK and warehousing on the European continent to ensure that our customers receive what they order, when they require it.

ABOUT AEGG

Aegg Creative Packaging is a glass and plastic packaging company, focussed on food & drink sectors. We supply jars, bottles, pots and bowls into producers serving retail, hospitality, catering, airline and other 'out of home' markets across the globe.

Headquartered in the UK with offices in Poland and Turkey, we have inhouse design, manufacturing, warehouse and logistics functions.
