Aegg has other products in a range of plastic (PP, PET & PS) and table glass

ABOUT AEGG FOOD & DRINK GLASS PACKAGING

All Aegg products are made to internationally recognised quality standards and would be described as being flint: they have very high lustre and clarity, though this depends on the volume of recycled glass used.

APPLICATIONS

Jams, honeys, sauces, soups, pastes, pickles, chutneys, fruit & vegetables, vinegars, condiments, dressings, soft drinks & juices.

STANDARDS & BESPOKE DESIGNS

Details of our off-the-shelf products (termed as 'standards') are to be found in this brochure. We can also design and manufacture glass packaging bespoke to your specific shape, size and closure needs.

VOLUMES

'Standards' can be supplied in pallet quantities upwards. Bespoke designs are supplied in full lorry or shipping container quantities.

COUNTRIES

Product can be delivered to any country, though economies of distribution are more likely favourable for the European landmass, inc UK.

SECURITY OF SUPPLY, WAREHOUSING & LOGISTICS

Aegg has its own warehousing and distribution fleet in the UK and warehousing on the European continent to ensure that our customers receive what they order, when they require it.

ABOUT AEGG

Aegg Creative Packaging is a glass and plastic packaging company, focussed on food & drink sectors. We supply jars, bottles, pots and bowls into producers serving retail, hospitality, catering, airline and other 'out of home' markets across the globe.

Headquartered in the UK with offices in Poland and Turkey, we have inhouse design, manufacturing, warehouse and logistics functions.
